SKILLS

Languages   : HTML, CSS, C++

Databases   : MySQL

Tools   : Visual Studio Code, Figma, GitHub

CS Fundamentals : Data Structure, DBMS, OOPS, computer Networks, OS

PROJECTS

Covid Support and Donation   *HTML, CSS, Javacript*   Source Code

- Developed and designed a web-based platform to link nonprofit groups, contributors, and organisations, utilising HTML, CSS, JavaScript, and Bootstrap to produce a simple and user-friendly interface.
- The COVIN API has been integrated to allow users to schedule vaccination appointments straight from the platform, simplifying the immunisation procedure and easing the load on call centres and government websites.

TextPlay   *React*   Source Code

- Developed a optimized Text Editor with a user-friendly interface and advanced text conversion features, that automatically convert text to uppercase or lowercase.
- Additionally, it offers text copying, extra space removal, text clearing, and many other features.

CERTIFICATIONS

- DIGITAL SKILLS: USER EXPERIENCE By Accenture

- Data Structures in C++ By Coding Ninjas
